Guiding Question

- How did industrialization and urbanization transform the economy, society, and culture of the United States in the 19th century?

Directions: Draw arrows from each invention to different categories (economy, society, culture) and list specific changes. Making connections across inventions is encouraged. For example: factories + steam engines = faster production and transportation.

ECONOMY

Steam Engine (early 1800s)

Cotton Gin (1793)

Early Factories (1810s-1830s)

SOCIETY

CULTURE
