

Interactive Timeline Notes

HANDOUT

Guiding Question

- I can investigate a timeline to identify important information and make connections.

Objective

- ☐ I can identify expansions and restrictions of voting rights over time.

Directions: Use the Interactive Timeline events assigned by your teacher to complete the guided notes.

Cornell Notes is a structured system for taking and reviewing notes, designed to help students actively process and retain information. This type of Cornell Notes has 3 sections:

1. **Note-taking column (left side)** – This is the largest section where you write down main ideas, details, facts, and concepts. Bullet points work well for this column.
2. **Questions and Connections column (right side)** – You fill in this smaller column with questions, thoughts, or connections that arise as you investigate the timeline event.
3. **Summary section (bottom)** – At the bottom of the section, you write a brief summary of the main points in your own words. This reinforces your understanding and memory.
