Document G: Excerpt from President James Polk's Message to Congress (1845)

...The terms of **annexation** which were offered by the United States having been accepted by Texas, the **public faith** of both parties is **solemnly** pledged to the compact of their union... This **accession** to our territory has been a bloodless achievement. No arm of force has been raised to produce the result. The sword has had no part in the victory. We have not sought to extend our territorial possessions by conquest, or our republican institutions over a **reluctant** people. It was the deliberate **homage** of each people to the great principle of our federative union. If we consider the extent of territory involved in the annexation, its **prospective** influence on America, the means by which it has been accomplished, springing purely from the choice of the people themselves to share the blessings of our union, the history of the world may be challenged to **furnish a parallel**
